About us

Since 1994 Milostan Creativity has helped individuals and organizations break through creative barriers to reignite their creative energy and potential.

As an international artist, author and educator, the "Midwife for the Creative Spirit"™ will make a Creativity House Call to your next event, social gathering, fund raiser or meeting and transform it into an enriching and experiential success!

Here's how it works:

We provide the art supplies, handouts (if applicable) set up, clean up and teach the group how to create a unique work of art with step by step instructions in a fun, friendly format. We can also create a special theme activity to compliment your event!

You select an activity, invite the participants, provide a space and we have the start of a great gathering! It is a memorable experience for all and individuals go home with a "masterpiece" in 2 to 3 hours!

Wear comfortable clothes, relax, get ready to play and express your creativity!
